

Wisconsin Department of Natural Resources
Bureau of Watershed Management
Total Maximum Daily Loads (TMDL)
for Impaired Waters in Wisconsin
Public Notice

July 25, 2006

Section 303(d)(1) of the Clean Water Act (CWA), 33 U.S.C. §1313(d)(1)(C), and the implementing regulation of the US Environmental Protection Agency [EPA, 40 C.F.R. §130.7(c)(1)], require the establishment of total maximum daily loads (TMDLs) for waters identified as impaired pursuant to §303(d)(1)(A) of the CWA. The Wisconsin Department of Natural Resources (WDNR) has developed a proposed sediment TMDL for the identified §303(d)(1)(A) water of Gills Coulee Creek located in La Crosse County, WI.

A copy of the TMDL is located online at:

http://dnr.wi.gov/org/water/wm/wqs/303d/Draft_TMDLs.html

Upon review of public comment and revision, the Department will submit this TMDL to the EPA for final approval. Persons wishing to comment on the proposed TMDL are invited to submit comments in writing (by mail or e-mail) no later than August 25, 2006 to:

Wisconsin Department of Natural Resources
Bureau of Watershed Management
PO Box 7921
Madison, WI 53707-7921
Attn: Carolyn Betz, WT/2
